Investor Expectation Score
(I.E.) Investors and company boards of directors have established targets for the five scoring measures that appear on pages 2 and 3 of this report. The I.E. score ranges from 0 to 120 (if all targets are exceeded by 40% or more). Click the Help button (upper-right) for more information.

Best-In-Industry Score
(B-I-I) The B-I-I score measures each company's performance relative to the best performing company on each of the five scoring measure. The B-I-I score ranges from 0 to 100. To score 100 a company must be the best performing company in the industry on all five scoring measures.

Weighted Average Score The weighted average score combines the Investor Expectation Score and the Best-In-Industry Score using a 50%-50% weighting as specified by the course instructor. Detailed explanations of scoring are provided in the Help documents associated with pages 1, 2, and 3 of this report.
